The stand is also made in his workshop from scrap wood to protect or display your mask in your home or office. This can also double as an iPhone or iPad stand.

## *Liners*

Washable liners to allow you to interchange masks for everyday use.

# Vitty Gutierrez

ARTISAN BUILDER & METALSMITH

## *About*

Vitty Gutierrez is a passionate artisan builder and metalsmith returned home to the Philippines by his desire to stretch his creative passions in his home country, from a successful career in Australia in 2012. He has brought to life inspiring spaces like Antipolo Beehouse and Burrow Café.

He uses not only a unique aesthetic style and love of nature, but also brutalist logic, to challenge the norm in building structures that are unique and beautiful, that complement the landscape, and that “enhances the humanity and souls of those who see, visit and live in them”.

He recently discovered copper works and metalsmithing in the midst of the current pandemic.

He is based in Antipolo, Rizal, Philippines.
